re science master design master in science master's degree in science + nokia 6303c rm 443 flash file cerrada ciencia mestre  
science master master in science A: You can read the value of \$timestamp using split() like this  
\$timestamp=split("/",\$\_POST['timestamp'])[0]; then you can compare it as desired. For multiple value you can simply loop over  
it. Eg. \$timestamps=array(); for(\$i=0;\$i 82157476af
