 Oh yea the games kinda fun.. The game gives very basic instructions about how things should be divided, and starts off simple. With each increasing level it gives different blocks to place, or has you place them in different orders.. Superb 3D space RTS. Like the civilization games if they were massize 3D space RTS with no size limits or unit caps. This game delivers a true 3D universe (with the option to flatten it to a 2D pane if that's the kind of map you want) with real time flight between stars and clusters. Sins of a Solar Empire meets Sid Meier's Civilization with extras that both games lack like 3D spaceflight along individually determined paths, real time civil management and custom unit construction.

Really a lovely game, proud to have it in my library. A recommended collectors item to buy on sale or even off if you have the spare cash and would appreciate sitting down to play something like this singleplayer sometime.

Unfortunately multiplayer is fairly dead and with Star Ruler 2 available for purchase now likely to stay that way. Still a very nice game for even just a few 100 hours of singleplayer. Star Ruler 2 going to be even better I hope and with people online.

This is the sort of thing I think of when I think of a honestly priced classic high quality PC video game.

A shame it hasn't been much more popular. Hopefully that would not ruin it as it seems to have much of the industry.. A fairy tale story full of hidden object puzzles of the type where you find pieces of an object. Puzzles run from easy to difficult. There are a few other types of puzzles that are a nice variation from the norm. Overall a decent puzzling experience. Graphics and music are nice.

Warning: In a couple of the hidden object puzzles, two pieces are matched to the wrong clue images. That is, when you find one of them, it erases the other one's clue. If you don't notice, you'll have a really hard time finding the other one.

Expect around 6 hours or so of gameplay, including the bonus chapter, which is pretty short and leads into the next game. Buy it on sale for best value.. I did all five of the things, and felt good for a few seconds. That's worth 59 cents.

I love this game. You get NO explanation and no direct aim, but I find it incredibly interesting to just wander about, bumping things, spreading colour, learning bit by bit what's going on and how you can enact bigger changes.

This is a really good game for destressing and just enjoying. I've spent a fair bit of time on it and I'll still enjoying.. great game, characters & plots. just one decision can completely change the ending. i recommend saving the game at any decision you make so that you can come back to it later & see whats else happens

. This game has been a part of my childhood, and I am proud of it.
For those of you who also wish to partake in this game, and the wonders it can give you I reccommend this.

There's a group on steam that plays this game, From honoroble naval captains, to sly Procyon warchiefs, to pirate scum.

 P.S. If your having troubles getting this thing to run, they can help. . does nothing.. My favourite childhood game. A challenging strategy game with a lot of replayability. If you're up for something different, give this a shot. This is good right here
